CEO JUHA BLOMSTER:

"Talentum's consolidated net sales from its publishing business grew by 9 per cent to EUR 16.7 million in July-September. The operating profit of publishing was EUR 1.7 million, which in this market situation can be considered to be a good achievement.

Excluding the considerable investment in the online business and the development and integration expenses for the new operations acquired in Sweden, the financial performance for January-September was also much better than in the previous year.

Advertising sales in magazines have increased by 2 per cent in Finland and 5 per cent in Sweden in the present year. Circulation revenue has increased by 5 per cent in Finland and 4 per cent in Sweden.

Net sales in the online business went up in the third quarter, as in the previous quarters, by more than 100 per cent. We are still investing in it in many different ways, as can be seen in the wide range of services for customers. In the present year we have relaunched 8 brands' websites, which has brought additional readers to the online magazines. The integration of the Talentum Fakta service, which was acquired in Sweden, is in the final straight and we are expecting it to develop positively next year.

In Finland the content and appearance of the magazine Energia were revamped, and it has reached many new readers and advertisers. The beginning of October saw the 70th anniversary of the founding of the business magazine Talouselämä.

Talentum Legal Training and Talentum Training, following a name change, expanded their range of services. The changes have met with a favourable reaction by the market: the amount of training that we organize has risen and the number of participants has increased.

Talentum's strategic objective is to diversify the income structure and to make content production and information services account for a greater share of the net sales. The net sales of the book, training and information services business operations increased by 13 per cent in January-September. We are doing well in this development."

Operating environment and seasonal variations

The general economic situation has clearly deteriorated as the effects of the financial crisis extend to many other sectors. The uncertain economic situation in Finland and Sweden will darken prospects for the end of the year.

According to TNS Gallup, media advertising in Finland grew by 3.9% (excluding election campaigns) in January-September. The figure for Sweden is not available, but the growth estimate for media advertising in Sweden for the entire year is 3.1% (Institutet för Reklam- och Mediestatistik). Job advertising continued to increase in January-September in Finland.

According to the Finnish Audit Bureau of Circulations, the circulation of every other magazine that it examined in the spring increased slightly or remained stable. The advent of new magazines onto the market and investment by old magazines in marketing their circulation were characteristic of the period examined. Growth in the circulation of special-interest magazines was also typical.

Talentum's sector, the media and media service markets, are subject to seasonal variations. In the spring, the Easter break falls in the first or second quarter, and this has an effect on the financial performance of these two periods. During the summer holidays, magazines and books do not generally come out, and for this reason the third quarter is the lowest in terms of sales. Business is at its liveliest during the final quarter of the year.

Consolidated net sales and financial performance July-September

The consolidated net sales recorded by Talentum's continuing operations in July-September amounted to EUR 18.9 million (EUR 18.7 million). Publishing's net sales went up by 9.0% to EUR 16.7 million (EUR 15.3 million).

Publishing's business operations acquired in Sweden in 2007 accounted for EUR 1.7 million of the growth in net sales. Premedia's net sales fell as a result of corporate restructuring.

The consolidated operating profit of the continuing operations in July-September was EUR -1.1 million (EUR 1.7 million), i.e. -5.6% of the net sales (9.2%). The operating profit before non-recurring items was 2.0 million (EUR 1.7 million). Publishing's operating profit was EUR 1.7 million (EUR 1.6 million). Publishing's financial performance was adversely affected by the integration expenses of the business operations acquired in Sweden in 2007 and the establishment of a new magazine, which totalled EUR 0.4 million.

An impairment loss of EUR 2.9 million on Premedia goodwill was recognized, and the financial performance is also burdened by expenses of EUR 0.2 million caused by restructuring of the business operations.

Net financial expenses amounted to EUR -0.1 million (EUR -0.8 million). The financial expenses in the comparative period included a loss on the sale of an associated company of EUR 0.5 million. Associated companies accounted for EUR -0.2 million (EUR 0.0 million) of the financial performance.

The profit of continuing operations before taxes was EUR -1.3 million (EUR 1.0 million).

TV Content Production, which was divested in the first quarter, was classified as a discontinued operation in January. The impact of TV Content Production on the financial performance is given in full under Discontinued operations in the income statement. The sale of the bulk of TV Content Production resulted in a sales profit of EUR 0.8 million, while the sale of Oy Filmitoimitus Fin Ab caused a sales loss of EUR 0.4 million.

Net financial expenses amounted to EUR -0.3 million (EUR -1.0 million). A loss of EUR 0.5 million on the sale of an associated company is included in financial expenses in the comparative period. Associated companies contributed EUR -0.4 million (EUR -0.1 million) towards the financial performance, an amount that includes not only the performance in the period under review but also EUR 0.3 million from an associated company's losses that were incurred in the previous financial period but detected after the balance sheet date.

The profit of continuing operations before taxes was EUR 4.5 million (EUR 5.6 million).

Talentum's prospects for 2008

Talentum expects the net sales of the core business to increase in 2008 compared with the previous year. In the current general economic situation it is exceptionally difficult to estimate the operating profit of the remaining year, however, Talentum expects the full year operating profit of the core business to be on the level of the previous year.

Risks to business operations in the near future

The biggest risk to the Group's business operations is associated with product and job advertising, which is sensitive to economic trends. About 40% of the consolidated net sales are tied to advertising at the annual level. We endeavour to control this market risk by increasing revenue from circulation sales and content sales.

Cash flow, financial position and balance sheet

The cash flow from business operations in January-September was EUR 2.5 million (EUR 5.9 million). The change in working capital was EUR -4.6 million (EUR -2.5 million).

The consolidated balance sheet total was reduced considerably as a result of the sale of TV Content Production at the beginning of the year and at the end of September stood at EUR 57.5 million (EUR 89.0 million on 31 December 2007). Interest-bearing net liabilities were EUR 1.6 million (EUR 5.3 million on 31 December 2007). The Group's liquid assets, EUR 4.4 million (EUR 13.8 million on 31 December 2007), have been invested mostly in financial instruments. The consolidated loans and borrowing amounted to EUR 6.0 million (EUR 19.2 million on 31 December 2007), of which commercial papers outstanding to the value of EUR 3.5 million (EUR 14.0 million on 31 December 2007).

In order to strengthen the Group's financial position, Talentum Oyj agreed on a current account credit facility of EUR 12.0 million for the Group for three years in February and a financial credit facility of EUR 20.0 million. Of the financial credit facilities, loans can be withdrawn or paid back within the framework of the rules during a credit facility's maturity time of three years. The credit facilities had not been used as at 30 September 2008.

The equity ratio was 39.4% at the end of September 2008 (36.7% on 31 December 2007). The Group's equity per share was EUR 0.52 (EUR 0.69 on 31 December 2007).

Investment

Gross investment in tangible and intangible assets in continuing operations in January-September totalled EUR 2.0 million (EUR 4.9 million), i.e. 2.7% (7.0%) of net sales. Investment in the comparable period includes the acquisition of Dagens Media.

Of the investment, EUR 1.3 million was spent on developing online business recognized as an asset. The rest comprised normal replacement and maintenance investment, such as procuring equipment, software and fixtures.

Group restructuring

On 22 January 2008, Talentum Oyj and CapMan Plc agreed that a company established by the CapMan Buyout VIII Fund, which is managed by CapMan Plc, would purchase the major part of Varesvuo Partners Oy, which focuses on TV content production. The transaction was concluded on 20 February 2008. The sub-group Oy Filmiteollisuus Fine Ab was sold on 28 March 2008 to Yellow Film & TV Oy, which is owned by members of the executive management of Oy Filmiteollisuus Ab. TV Content Production's net sales in 2007 amounted to EUR 22.9 million, and it employed 95 people.

The operating result of TV Content Production, apart from the Oy Filmiteollisuus Fine Ab sub-group, is not included in the Group's financial performance for January-September 2008. The sales profit created by the transactions and the financial performance of TV Content Production are shown under Discontinued operations in the income statement for January-September 2008 and for 2007.

Most of the Premedia functions were divested in accordance with the strategy. In February, the Talentum Group sold the entire shareholding of DH Tools Oy and in April it sold the entire shareholding of Sata-Flexo Oy and Marvaco Oy.

Personnel

During January-September, the Talentum Group' continuing operations employed an average of 844 (829) people. Geographically, the personnel were divided as follows: Finland 477 people (513), Sweden 186 (138), Latvia 76 (73), Lithuania 29 (21), Estonia 68 (75) and Russia 8 (9). In Sweden the increase in the number of personnel stems from corporate acquisitions.

The Annual General Meeting on 27 March 2008 authorized the Board of Directors to decide on a share issue which may be either liable to charge and/or free of charge, including the issuing of new shares and the conveyance of own shares possibly in the company's possession.

The Board of Directors has the right, by virtue of the authorization, to decide on an issue of option rights and other special rights that grant entitlement, against payment, to receive new shares or shares possibly in the company's possession.

By virtue of the authorizations applying to a share issue and/or special rights, new shares may be issued and/or shares in the company's possession may be conveyed, in one or more lots, to a maximum total of 3,500,000 shares, representing approximately 8% of the issued shares of the company.

The authorizations will remain in force until 30 June 2009.

The Board of Directors is otherwise authorized to decide on all the terms and conditions for a share issue and the issuing of special rights, including the right to decide on a directed share issue and issue of special rights. Shareholders' pre-emptive subscription rights can be deviated from providing that there is a significant financial reason for the company to do so.

Own shares may be acquired only with unrestricted equity.

By virtue of the authorization, a maximum of 3,500,000 own shares, representing approximately 8% of the issued shares of the company, can be acquired, in one or several lots.

The authorization will remain in force until 30 June 2009.

The Board of Directors is otherwise authorized to decide on all the terms and conditions regarding the acquisition of own shares, including the manner of acquisition of the shares. The Board has decided to issue to the people coming under the share-based incentive plan rewards in shares specified according to the terms and conditions of the plan in question in the form of a directed share issue free of charge, incorporating in total 74,970 new shares. The shares were registered with the Trade Register on 20 March 2008.

Acquisition of own shares

The Board of Directors of Talentum Oyj decided on 26 February 2008, by virtue of an authorization given by the Annual General Meeting on 27 March 2007, to acquire a maximum of 500,000 of the company's own shares, which corresponds to about 1.13% of all the company's shares. The shares will be acquired with the company's distributable funds, and the acquisition of the shares will reduce the company's distributable unrestricted equity. The shares will be acquired in public trading on the OMX Nordic Exchange Helsinki at the price on the day of purchase as provided by the law on the public trading of shares. The own shares will be acquired for use as consideration in possible corporate acquisitions and other arrangements when the company acquires assets relevant to its operations, and for developing the company's capital structure, including the possible further conveying and cancellation of shares. There will, therefore, be a significant financial reason for acquiring the shares.

After this, the CEO of the company must, however, own 50% of the shares earned on the basis of the plan as long as the service of the CEO continues and one year after the end of the service. NOTES TO THE FINANCIAL STATEMENTS

This interim report has been drawn up according to the IFRS recognition and valuation principles, but not all the requirements in the IAS 34 *Interim Financial Reporting* standard have been observed. In drawing up this interim report, Talentum has applied the same accounting principles as in the financial statements for 2007 apart from the additions described in the following paragraph.

In drawing up the interim report, the Group has recognized as an asset the costs of developing the online business operations under intangible assets in progress. The costs of project research have been recognized as an expense in the income statement when they have materialized. Development expenditure has been recognized as an asset when the asset has been considered to be technically feasible and commercially exploitable, and it is expected to produce future financial benefit. The economic useful life of intangible assets created from development activities is two years. However, the economic useful life of intangible assets created in the information business is three years. The main item in the development costs is outsourcing.

As of 1 January 2008, Talentum has adopted the following new IFRIC interpretations: IFRIC 11 *Group and Treasury Share Transactions* and IFRIC 14, IAS 19 *The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction*. The adoption of the interpretations has had no effect on Talentum's interim report. Other new interpretations are not relevant to the Group.

All the figures in this report have been rounded up or down, so the sum of the figures may be different from the totals shown.

GROUP COMPANIES SOLD IN THE PERIOD UNDER REVIEW

In February, the Group sold the Varesvuo Partners sub-group, which focused on TV content production, except for the Group's shares in Oy Filmiteollisuus Fine Ab and companies which it owns, which were sold in March. The Varesvuo Partners sub-group has not been included in Talentum's consolidated figures for January-March, except for Oy Filmiteollisuus Fine Ab's result of EUR 0.00 million. The Varesvuo Partners sub-group was classed overall as discontinued operations in January.

The main areas of activity of the Varesvuo Partners companies are TV programme production and advertising film production. The customers are TV channels and advertising agencies. Talentum focuses on publishing targeted at professionals, and TV programme production and advertising films are no longer seen to have any synergy with the core operations.

In February, the Group also sold its entire shareholding in DH Tools Oy, which was part of Premedia and focused on digital data management.
